PROFESSIONAL SUMMARY

Software engineering student passionate about backend development and DevOps practices. Experienced in building REST APIs, microservices, automated data pipelines, and containerized applications using Docker and Linux. Interested in cloud infrastructure, CI/CD, automation, and scalable data processing systems.

EXPERIENCE

Full Stack Developer – Intern

Feb 2022 – Jun 2022

Cypros

- Designed, deployed, and maintained Dockerized scraping microservices processing 10,000+ product records daily across multiple supermarket sources.
- Improved REST API performance by 20% via optimized payload handling.
- Designed and optimized relational and NoSQL data models for high-volume scraped datasets.
- Automated application deployment using Docker and GitHub Actions while integrating backend services with a Flutter client.
- Created test cases using JUnit and Mockito.

Full Stack Developer – Intern

Aug 2021 – Sep 2021

WowSoft

- Developed content management features for medical professionals.
- Implemented secure JWT authentication and role-based access.
- Built Angular UI consuming Spring Boot REST APIs with MySQL database.

SIDE PROJECTS

PodStudio: Podcast studio rental web application using Vanilla techs no frameworks (*PHP, JavaScript, MySQL*)

Hotel-X: Hotel management system with role-based authorization (*Spring Boot, Angular*)

Parking App: Mobile application for Parking spots booking (*Flutter, Firebase*)

CosmoGlowy: E-commerce Cosmetics platform (*React, Node.js*)

Portfolio: Next.js portfolio with automated CI/CD deployment (*Next.js, Tailwind, CI/CD*)

EDUCATION

TEK-UP

Software Engineering Student

ISSET Kélibia

Bachelor's Degree in Information Systems Development

TECHNICAL SKILLS

Backend: Spring Boot, Spring Security, Hibernate, Flask, REST API design, Unit Testing

Frontend: Angular, React, NextJs, Tailwind, Flutter

Programming: Java, Python, Javascript

Databases: MariaDB, MySQL, MongoDB, Firebase

DevOps: Docker/Podman, Troubleshooting, Git, GitHub Actions, Linux, CI/CD, Cron Jobs

Other: Agile / Scrum, Jira, Clean Code, SOLID Principles

CERTIFICATIONS

- Red Hat Certified System Administrator (RHCSA)
- [PCAP-31-03] PCAP™ – Certified Associate Python Programmer
- EF SET English Certificate 77/100 (C2 Proficient)

LANGUAGES

Arabic • English
