

Bouzidi Mohamed Ali

Full Stack Developer

Ariana, Tunisia | +216 23 908 331 | bouzidi.medali20@gmail.com | linktr.ee/BouzidiMedAli | linkedin.com/in/bouzidi-med-ali

PROFESSIONAL SUMMARY

Backend-oriented full stack developer experienced in scalable backend systems, Spring Boot microservices, and containerized workflows. Familiar with cloud-ready development practices including REST APIs, Docker, and automated pipelines.

EXPERIENCE

Full Stack Developer – Intern

Feb 2022 – Jun 2022

Cypros

- Built and deployed scraping microservices collecting 10k+ products daily from 4 supermarket sources.
- Improved REST API performance by 20% via optimized payload handling.
- Designed hybrid data model (MariaDB + MongoDB).
- Integrated backend with Flutter app, automated with Docker & GitHub Actions.
- Created test cases using JUnit and Mockito.

Full Stack Developer – Intern

Aug 2021 – Sep 2021

WowSoft

- Developed content management features for medical professionals.
- Implemented secure JWT authentication and role-based access.
- Built Angular UI consuming Spring Boot REST APIs with MySQL database.

SIDE PROJECTS

PodStudio: Podcast studio rental web application (*PHP, JavaScript, MySQL*)

JavaResto: Restaurant management system (*Java 21, Swing, MySQL*)

Hotel-X: Hotel management system (*Spring Boot, Angular*)

Parking App: Mobile application for Parking spots booking (*Flutter, Firebase*)

CosmoGlowy: E-commerce Cosmetics platform (*React, Node.js*)

Shrink-It: URL shortener web application (*Flask, React*)

YouTube Unsub: YouTube channels batch unsubscribe (*Flutter*)

Portfolio: Personal portfolio website (*Next.js, Tailwind, CI/CD*)

EDUCATION

TEK-UP

Software Engineering Student

iset Kélibia

Bachelor's Degree in Information Systems Development

TECHNICAL SKILLS

Backend: Spring Boot, Spring Security, Hibernate, Node.js, Flask, Python, REST API design, Unit Testing

Frontend: Angular, React, NextJs, Tailwind, Flutter

Databases: MariaDB, MySQL, MongoDB, Firebase

DevOps: Docker, AWS (EC2, S3), GitHub Actions, Linux, CI/CD, Cron Jobs

Other: Postman, Agile / Scrum, Jira, Clean Code, SOLID Principles

CERTIFICATIONS

- Red Hat Certified System Administrator (**RHCSA**)
- [PCAP-31-03] **PCAP™** – Certified Associate Python Programmer
- EF SET English Certificate 77/100 (C2 Proficient)

LANGUAGES

Arabic • English
