

BOUZIDI MOHAMED ALI

FullStack Developer

Ariana, Tunisia | +216 23 908 331 | bouzidi.medali20@gmail.com Portfolio:

linktr.ee/BouzidiMedAli | LinkedIn: /in/bouzidi-med-ali

Professional Summary

Backend-oriented full stack developer experienced in scalable backend systems, Spring Boot microservices, and containerized DevOps workflows. Currently preparing for RHCSA to strengthen Linux and automation skills.

Technical Skills

Backend: Spring Boot, Spring Security, Hibernate, Node.js

Frontend: Angular, React, Tailwind, Flutter

Databases: MariaDB, MySQL, MongoDB, Firebase

DevOps: Docker, GitHub Actions, Linux, CI/CD, Cron Jobs

Other: Postman, Jira, Clean Code, SOLID Principles

Experience

Full Stack Developer – Intern | Cypros | Feb 2022 – Jun 2022

- Built scraping microservices collecting **10k+ products/day** from 4 supermarket sources.
- Improved REST API performance by **20%** via optimized payload handling.
- Designed hybrid data model (MariaDB + MongoDB).
- Integrated backend with Flutter app; automated with Docker & GitHub Actions.

Full Stack Developer – Intern | WowSoft | Aug 2021 – Sep 2021

- Developed content management features for medical professionals.
- Implemented secure JWT authentication and role-based access.
- Built Angular UI consuming REST APIs with MySQL backend.

Side Projects

- **Hotel-X** – Hotel management system (Spring Boot, Angular)
- **Parking App** – Mobile booking (Flutter, Firebase)
- **CosmoGlowy** – E-commerce platform (React, Node.js)
- **Shrink-It** – URL shortener (Flask, React)
- **YouTube Unsub** – Tool tested by 30+ users (Flutter)
- **Portfolio** – Next.js + Tailwind + CI/CD

Education

Software Engineering Student — TEK-UP

Bachelor's Degree in Information Systems Development — ISET Kélibia

Certifications

- Preparing: Red Hat Certified System Administrator (RHCSA)
- EF SET English Certificate — C1 (68/100)

Languages

Arabic (Native) • English (Advanced) • French (Conversational)
